CARNOT
REFRIGERATION

LET WEATHER CONDITIONS FULFILL YOUR
REFRIGERATION NEEDS WHEN OUTDOOR
TEMPERATURES ALLOW.

CO₂ SOLUTION BY CARNOT: A SMART, ECOFRIENDLY AND PROFITABLE CHOICE

NATURAL RAIN CYCLE

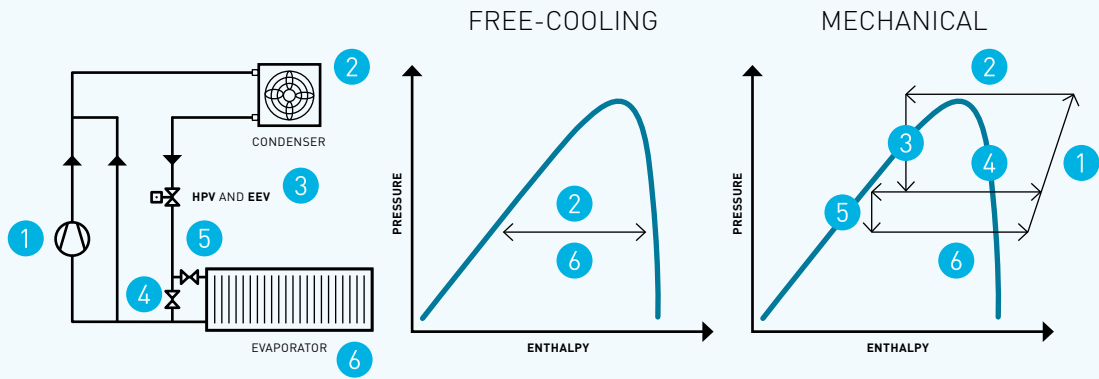

Made by the most experienced company in CO₂ transcritical solutions in North America, the CO₂ refrigeration system by Carnot is the smart choice.

CO₂ RAIN CYCLE ADVANTAGES

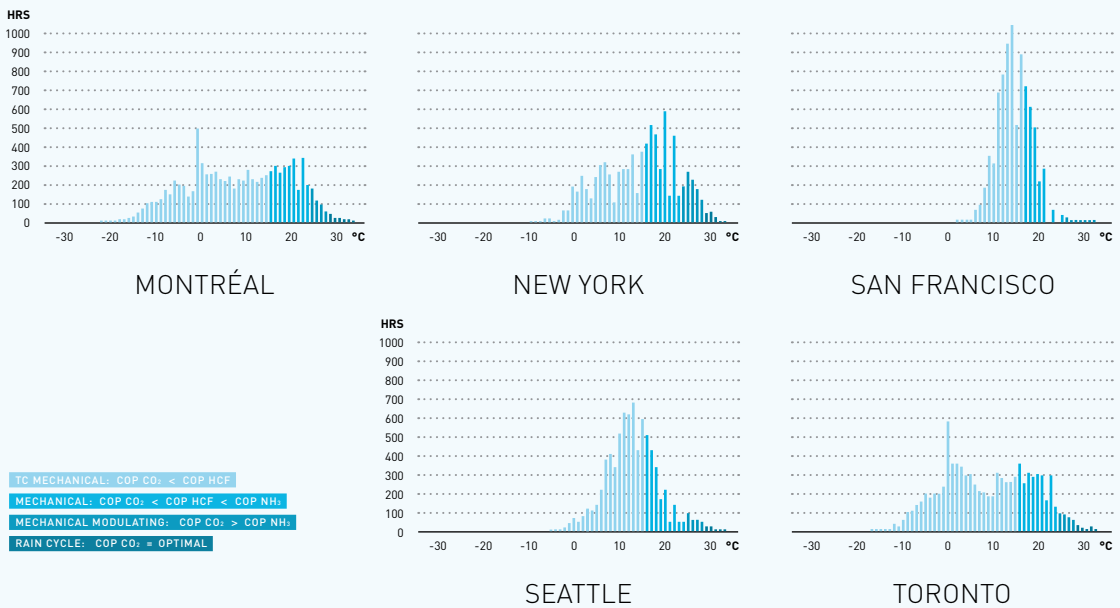

Intelligent use of the natural cycle of evaporation and condensation of CO₂ to avoid overuse of compressors for major savings on operating costs.

Let weather conditions fulfill your refrigeration needs when outdoor temperatures allow. The benefits of not using fresh air for free-cooling also include no excess contaminants from outside air, and no excess humidity.
